NO. TWENTY-FIVE

PRESIDENT'S NEWS AND VIEWS

This summer has passed so fast for me that I can hardly believe that the fall season is upon us. I will not be at the first meeting because of business commitments but I sure wish I could. I really got my first look at slow scan TV at the FM Expo out of Chicago. I want to know more about it. So the first two programs should be very interesting.

Reid Burrows, W9JWT one of our life members has retired and is selling his home and going to New Mexico to live. We wish you good luck and keep in touch with us and let us know how you are.

As I look through the roster I see many names that we have not heard from in many a year. The reason we have not heard is that you have not written or made contact with us by radio. I am sure that Chet would be glad to print any comments you would like to make even if it is only to say "....". Please remember you have left us; we have not forgotten you as the club is still going strong and we would like to know about you. One way is to be sure and get to our Old Timers Night that will be at the Pabst Brewing Co. again in January. Make plans now. A buffet lunch will be served. So in the mean time see you at our regular meetings. 73

Dick, W9ZPV

P.S. Keep thinking about new officers for next year. How about you running for president or any other office in the club. Make your thots known.

DUES ARE DUE, SEE CHARLEY, W9CUW

REPORT CHANGE OF ADDRESS

AMERICAN COUNCIL OF BLIND CONVENTION

When the ACB held their convention at the Sheraton-Schroder Hotel July 27-30, members of the MRAC helped set up a station on the 19th floor. This was operated by members of the Ham Radio Operator's Association, ACB service net on 14305 KHz. Howie WA9RYF, also a ACB member, brought his Drake Tlx-Rls and Dick W9ZPV and John Wells, the chief Sheraton security officer, put up an antenna on the roof over 25 floors up. A 2 meter station was also in operation. Most of the operating was on the regular ACB service net at noon and many conventioners contacted "back home." Among the blind hams were Doris Hauser WA9MWM, Travis Harris K5DZV, Barney Abbott W4YRO, Lester Mc Glaugh WB4IDB and neophytes Carol Love, Clarence James and Calvin Woten.

Howard Traxler, WA9RYF

FRED ZOLIN, W9ONY - 1894-1971

If it were true that in one's last moments, all of the events of one's life pass in review in the mind's eye, Fred and all who knew him could be proud of his chronicle of accomplishments.

Born in Rhinelander, Wisconsin on Christmas Day 1894, he was brought to Milwaukee about 1900. In 1910 he developed an interest in that newfangled wireless which had given Marconi the 1909 Nobel Physics award. In 1912 he was employed by Western Union as a telegrapher, and when Uncle Sam got into World War I, Fred enlisted in the Navy as a Radioman. When World War I was over and Herbert Hoover was selected to run the Belgian Relief program, Fred was chosen to work with Mr. Hoover's group as personal telegrapher and assistant. He visited Ireland, Belgium, Austria and Hungary in the course of this endeavor. Mr. Hoover sent him a personal commendation and continued to correspond each year.

Fred returned to Milwaukee and married Florence in October 1920, and of course, continued with Western Union. His only son, Byron, lives in Wilmington, Delaware, was a graduate chemical engineer for Du Pont, and is now a consulting engineer. Fred again pounded brass in the main office out at old Borchert Field when the old Brewers were in town, and at other events.

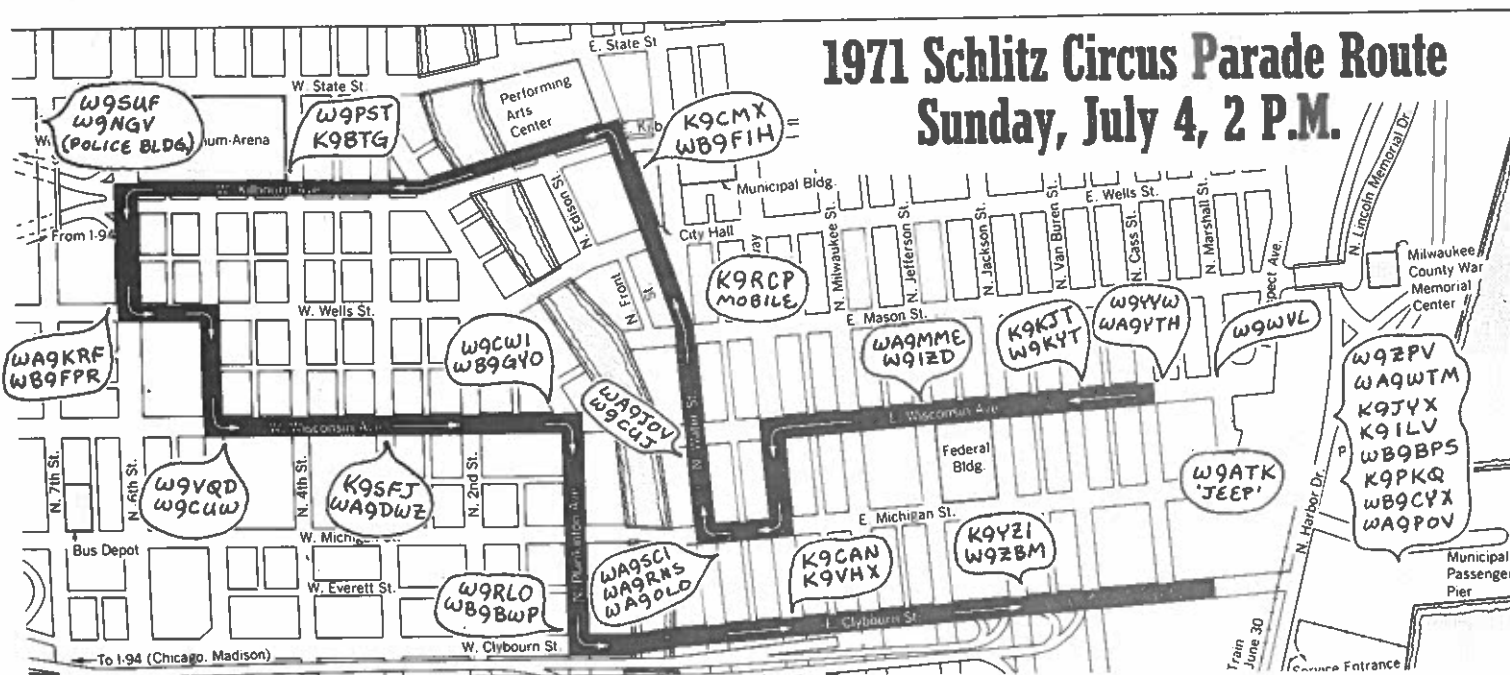

After World War II, Fred and our late Jack Doyle, W9GPI, collaborated to start this club paper, Hamateur Chatter. Fred was the first editor and Jack was publisher. Through Western Union he was able to get favorable publicity items about club activities into the newspapers. He was president of the club in 1950-51 and 1951-52.

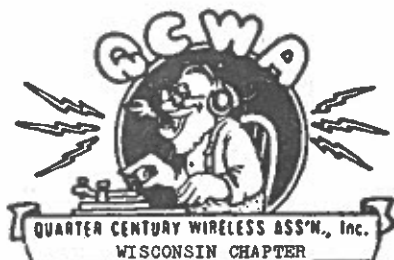

In 1960 Fred retired as supervisor at Western Union, after 48 years of service. He had been too active to settle down to a life of ease, so he worked for Vilter for a short time until a heart attack slowed him down. Recovering from this temporary setback, he set forth as a credit investigator for the Association of Commerce, Credit Bureau, working at the Court House from August 1961 until his passing on June 4, 1971.

Fred enjoyed operation of his mobile installation, and could be found in the Mc Kinley Beach area working his Gonset twins, totaling well over 100 countries on 20, 15 and 10 meters. He was a member of the Quarter Century Wireless Association, and was to be a charter member of the Wisconsin Chapter.

The MRAC has sent a gift to the Heart Association in remembrance of Fred's services to the club. We offer Florence our heartfelt sympathy at her loss, and ours.

Travis Baird, W9VQD

QCWA WISCONSIN CHAPTER

The Charter for the Wisconsin Chapter has now arrived and a formal charter meeting will be called September 25th. The dinner meeting will be held at the Downtowner Motel (W9VOW, mgr.), 321 S. Washington St., Green Bay. The dinner will start at 1:30 with the usual warm-up an hour or so earlier. Chairman W9DOL says that the dinner will be an excellent buffet with chicken and ham and modestly priced at \$3.50. He also has arranged an interior decorating and floral demonstration by Norman Hanson at the WBAY auditorium for the XYLS during the regular business meeting.

On the agenda will be election of the permanent board and presentation of 50-year certificates to W9DD, W9DR, W9FY and W9KAJ. QCWA members joining this chapter by "dinnertime" will qualify as Charter Members. The total of 57 members signed the petition which gives us a terrific headstart in a formal organization. Make dinner reservations thru anyone reporting in the QCWA Net on 3985 KHz, Sunday 9 AM. Those interested in staying over, reservation is requested one week in advance. Rates are: single \$13, double \$17, king size double \$18 and twin \$19. Reservation for dinner by Sunday, Sept. 19th to W9NRP or W9CTI. Chet, W9CTI

W9NHE reports that the 2 meter band was open for several days in the middle of August. The skip was about a 1000 miles and reports a round-table with W5s, W8s and W0s.

CORRESPONDENCE

The President's message in the June issue appealed for suggestions for future meetings. As usual, we were swamped with letters (only one!). But this one by Bob Schmid, WA9FBO seems to voice other hams' feelings as well so we publish it intact.....

I read with interest your column in the latest issue of the 'Chatter, and thought I'd like to relay my ideas for topics in the coming meetings. I am a relatively new member of MRAC and possibly these subjects have been discussed before, but if not I think a lot of hams would benefit.

Radiofacsimile and satellite wx pictures were mentioned, and I am told that FAX machines are available used in the Milwaukee area. This would certainly be an interesting mode, possibly on some little-used 2-meter channel.

How about Amateur Television on 420 KHz? Some hams have put inexpensive Japanese-made TV cameras into Motorola 450 rigs and sent TV 50 or 60 miles. Maybe someone in the area has had experience in that.

Would one of the Navy Mers members be willing to explain what is involved in joining, what equipment is needed and supplied, and how the Severe WX system operates? I think some of us newer members would find this interesting and would join if given the opportunity. (Check AREC meeting.)

I am on RTTY like many others in the Club, but interesting circuits and shortcuts are always welcome. Maybe a good solid-state autostart circuit can be found and illustrated for those in VHF teletype.

I, too, have found the programs at the club meetings interesting and informative, and hope our talented members will keep up the good work. I will return to M.S.O.E. in the fall to complete my program in Electrical Engineering, and hope to keep in close touch with the club. If at any time I can be of service to the club, please don't hesitate to call. Thank you very much for your time.

Bob

CONGRATULATIONS!!

...to George and Elsie Maras "Wx9BAR" for celebrating their 35th wedding anniversary. The AREC second meeting at their place on June 1st at 23rd and State was treated to a round of the usual refreshments. They also celebrated 31 years in the biz.

...may soon be to W9ZEM?

...to K9CAN for his 6-month old son John.

...to new Generals Mark Miller WB9EMV and Dave De Febo WB9BWP.

...FLASH!! W9GIL awarded 5BDXCC!!

FEEDBACK OZAUKEE R.C.

New officers for the coming year are:

President Charley Imbruglia, WA9GPE
Vice-Pres. Bob Truscott, W9NYJ
Secretary Larry Keyes
Treasurer Rich Husting, WA9TZU

Field Day was good this year with a good score. Altho not tops in the category, a good time was had by all. Besides the operating, the fine food and drinks were enjoyed by all--starting Friday night. (Perhaps everyone would be fresher if the Friday night pre-Field Day "preparations" were eliminated. Sorry about that, I was voted down!) F.D. antennas include a full wave Delta 1 o p on 40 meters and 2-wave on 20 meters. WA9GPE helped five Boy Scouts get their merit badge in radio with assistance from WA9GDA K9VNM and W9RXJ were impressed with Expo 71. W9RXJ is slowly getting cards for his DXCC--Sus, watch out! The county court house radio set-up is progressing slowly. K9UKH and WA9GDA found both ends of the feeding conduits. W9RXJ and WA9GDA are putting up beams. Some unscrupulous members are taking bets as to whose will stay up till Xmas. W9UKH is still scrounging parts for his miniature 2M FM receiver. W9VLL will be an expert on skeleton slots for his 3/4 meters but for the moment is wide open for suggestions. K9ZUB has designed his own SS VFO. The local boys are singing "Where is my wandering boy to-night!" WA9RPB has copied Chicago stations 432 SSB.

The Corn Roast on Aug 29th brought out over 50 to Ed Bach's beach camping grounds. The hungry crowd put away many, many brats and steaklets plus the piece de resistance, ROAST CORN by the bushel. Rich W9TZU and Faus WA9GDA did the honors over the hot "stoves." We won't mention that the beer in back of Hal's car nearly didn't get unlocked! A good time was had by all as usual!

Ed Bach, WA9BMA

MENOMONEE FALLS ARC

Field Day report shows not too bad but doesn't show the fun, which is primary, points secondary! And if food is fun, then steaks for supper, eggs and bacon for breakfast and steaks for dinner again is. Another attempt to have a meeting was held August 31.

Dick Kimbell, WA9MME

CHORUS: "Wait till next year!"

SMOKE SIGNALS BARABOO

Field Day was very successful in spite of the presence of Murphy (where wasn't he!). The hospitality tent was a FB idea and provided a rag-chew area between operating. 2 meter came thru FB with W8's, W9's and W0's. Novices made 66 contacts. Over 50 signed the FD register as reported by Rev. Anderson, but he probably missed some as he had to "work" on Sunday. WN9EWQ, WN9FKW, WN9FMU and WN9FFQ got their general and WB9ECM passed his 2nd class phone. Classes will again be sponsored this year. General teachers are W9YHO, WB9ECM and WB9EWR, while the novice group will be attended by WB9EWR and K9PKQ. September meeting will be "Homebrew Nite" and October meeting will be "Auction Nite." Another 6-month activities contest will be sponsored with 26 point-building categories. Basically it involves club and on-the-air activities.

Jim Romelfanger, K9PQK

BEAR TRACKS FROM BEAR FACTS

Preparations are already made for the Annual Fall Fiesta to be held at Heidi's on October 12th. This is the fifth anniversary and always was a lot of fun. Dues are due to you too!

Glenn Mattes, K9QHS

SOUTH MILWAUKEE

Officers for the 1971-72 year are:

President Larry Kieck K9ZBX
Vice-Pres Greg Burditte WA9RDH
Secretary Harry Wright WA9WYG
Treasurer John Spooner WA9MVT

The Hamfest was very successful this year. Coupled with an early start and FB wx, a crowd of over 300 attended. The novel "Happy Hour" with its free drinks and the many door prizes contributed greatly to the success. The committee thanks all those who attended. Thanks also go to the sponsors who donated to door prizes and other supplies: Mc Graw-Edison, Power Systems Division, Allied Radio at Cudahy, Schlitz Brewery, Amateur Communication on K.K., Tiffany Distributors, South Milwaukee ARC, Amateur Electronic Supply, Miller Brewery, Sunrise Liquor Mart, Cudahy and Ray Kallies Distributors. Field Day was interrupted by Murphy after making 700 points. "Wait till next year!"

Larry Kieck, K9ZBX

CHATTER

"We would like to commend the 27 operators of the Fox River Valley for their good fellowship and communications with visiting hams from Milwaukee," says W9CUJ.

RADIO CLASSES

The MATC course #385, Amateur Radio Operation, will be given by three local Vocational Schools. Shorewood Opportunity School, Fulton School and Cedarburg High School will offer night classes. Registration from Sept. 13 thru 16. More info can be obtained from the schools mentioned or MATC.

Radio courses will be offered by Waukesha Technical School again. Information can be obtained from the school.

West Allis Radio Club is conducting classes again. Contact Lynn Tambllyn 483-2939 for info.

Yellow Thunder Radio Club is again having classes for both Novice and General grades.
